7/19/2017: Left VM for Mr. Klingler re: above Site. In 2012 EPA issued an approval for encapsulation of PCB-contaminated building substrate following removal of caulk. The approval required a deed notice to document site conditions and a LTMMMP as well as a project completion report. To-date the required information has not been submitted. I had contacted Mr. Klingler about this in March 2017 at which time he stated he was working on it and that the information would be submitted. He also indicated that the required annual sampling had been performed, but that he had not finalized all these plan. He said he would get this to me. To-date I have not received any of these reports.

Respond by Date(s):	Received by:
ADDITIONAL NOTES:  If required information not submitted, a letter will need to be sent to the Town re: non-compliance. <i>WJ 7/19/17</i>
